

# Who We Are...

Showlite is recognised as a trusted partner for the delivery of all essential event services including:

- Shell Scheme
- Electrics
- Lighting
- Furniture
- Flooring

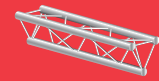

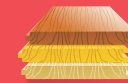

Our clients benefit from the team's positive 'can-do' attitude and depend on us for:

- Reliability
- Exceptional Service
- Efficiency
- Problem Solving
- Customer Focus

Founded in 1992 by our managing director, Paul Wicks, we have earned a reputation for being one of the most trustworthy and professional contractors in the industry.

Whether you are an Organiser or an Exhibitor, from the moment you choose us as part of your team, we'll go the extra mile to help you create the ultimate event.

# Electrical

High quality service and reliable electrics is our field of expertise, from wiring whole events to bespoke stands. Showlite is acknowledged as a leader in this field by both organisers and exhibitors.

With our top quality equipment serviced after every event, clients can be sure we maintain consistently high standards.

We innovate too! As part of our commitment to investing in environmentally friendly products we have launched ShowWire. Our unique plug-together exhibition electrical wiring system is highly versatile as well as being quick to install and remove. ShowWire represents a totally sustainable solution as there is no waste due to the fact that we re-use all cabling. We also integrate it with our Octanorm and basic shell schemes for simple, neat and streamlined electrical solutions.

At Showlite we practice what we preach when it comes to environmental issues.

# Flooring

Choosing the right floor covering can really enhance the look of a single stand or whole event. With our years of experience in the industry our team will advise you on how you can use different flooring options to deliver your ideas and create maximum impact.

As you would expect we supply a comprehensive range of typical event floor coverings from cord to carpet tiles, vinyl and velour in a myriad of colours.

If you are wanting a more unusual look we can specify other flooring types such as hard wood or wood laminate, stone flagging, metallic effect, artificial grass or even marble and granite!

# Furniture

**Furniture can help define a stand's purpose and create texture. It's an integral part of a successful stand or feature area.**

We'll help you create a relaxed environment with stylish sofas, and effective formal or casual 1-2-1 meeting areas.

We offer a vast range of contemporary and traditional furniture styles and equipment for individual stands, feature areas, offices and hospitality zones. Our fabulous furniture solutions will help you achieve an ideal level of functionality for your event.

# Lighting

Make your event memorable through the effective use of lighting to create mood, focus attention and enhance your visitors' experience. Showlite's lighting team will ensure you stand out from the rest with our unrivalled technical expertise, knowledge of the latest systems and a creative eye to design and build superb installations.

We don't just bring this expertise to individual stands, we also create brilliant lighting schemes for feature areas and entire events!

# Shell Scheme

Shell scheme is a highly cost-effective and extremely versatile display system that brings professional exhibition standards within reach of even the smallest company. This 2.5m high walling panel system comes in a variety of colours, with the option of smooth or Velcro compatible finishes, and is super-quick to erect and dismantle.

Panels are supported by the white powder coated Octanorm system of uprights, grid ceiling and beams designed for ultimate strength and rigidity. A visible panel size of 2340mm high x 950mm wide gives exhibitors the opportunity to maximise their graphics and branding.

Additional extras include exhibitor name boards, graphic panels, stand numbers, ceiling grids, lighting battens, shelving and other accessories.

Showlite can integrate the Astralite aluminium trussing system into your Shell Scheme to enhance your presentation, creating the perfect framework for stand or feature lighting, audiovisual, signage, cables and pneumatics.

# Truss

As one of the UK's leading suppliers of the Astralite truss system, our detailed knowledge of how to maximise its many benefits results in attention-grabbing sets, lighting rigs and circles.

Astralite is an aluminium framework system capable of being free standing up to four metres tall. Quick to build and dismantle we recommend it for its excellent strength-to-weight ratio and its versatility, providing an excellent support for stand or feature lighting, audiovisual, signage, cables and pneumatics.

Alternatively Astralite can be suspended from any suitable structure and is the perfect support platform for features such as specialist lighting, sound systems, gobos, plasma screens, projectors, cameras and graphics.

For large suspended structures we always keep a wide range of Halide, Halogen and moving lights in stock.
